Notification No. Gen. 7608—*Legis.* 39, *dated 5th January* 1898.

The following draft of rules proposed to be made under Section 18 of the Mysore Factories Regulation 1892, is published for general information as required by Sub-Section (4) of the said Section and will be taken into consideration by the Government on or after the 1st day of April 1898. All objections and suggestions, which may be received with respect to clauses (2), (3) and (4) of Rule 7 and to the Rule made under clause (2) of Section 18 of the Regulation before the above date, will be duly considered.

DRAFT RULES (1).

In exercise of the powers conferred upon it by Section 18 of the Mysore Factories Regulation IV of 1892, the Government of Mysore is pleased to prescribe the following rules :—

1. All references to "the Regulation" or "the Factories Regulation", in these rules are to be understood as referring to the Mysore Factories Regulation IV of 1892.

2. A register of Factories in Form A annexed to these rules shall be maintained by each District Magistrate for all factories other than railway factories within his district and by the Assistant to the Chief Engineer for all railway factories. In these rules the words "registering Inspectors" mean and include these Inspectors only.

3. On the publication of these rules the registering Inspector shall give notice to the manager or occupier of every factory within his jurisdiction intimating his intension of placing such factory upon his Register of Factories (Form A).

4. Any person served with a notice under Rule 3 whose permises do not fall within the definition of a factory given in the Regulation may, within fifteen days of the receipt of such notice, forward to the registering Inspector a statement setting forth his objections to the registration of his premises as a factory. The registering Inspector shall consider and dispose of such objections after making such inquiry as he may deem necessary, and shall make up his register of factories in accordance with the provisions of the Regulation.

5. The registering Inspector may at any time serve a notice, as provided in Rule 3, upon the occupier of any factory which is not already entered in his register of factories, and the provisions of Rule 4 shall apply to the subsequent proceedings in all such cases.

6. When any premises cease to be occupied as a factory, the occupier may give notice of the fact to the registering Inspector, who shall, if satisfied that the Regulation is no longer applicable to such premises, remove them from his register of factories.

7. It shall be the duty of every occupier of a factory—

(1) to fence all machinery and mill-gearing in such a manner as to provide for the safety of the operatives ;

(2) to provide a supply of not less than two gallons of water *per diem* for each operative ; of this one half at least must be suitable for drinking and the remainder for washing purposes ;

(3) to arrange for the proper ventilation of the factory so that each operative shall have a sufficient quantity of air ; in the case of walled-in masonry buildings the *minimum* space provided for each person shall be 36 superficial feet, 500 cubic feet and 10 square feet of lateral ventilating opening, and in cases in which lateral ventilation cannot be contrived, sufficient supply of fresh air shall be ensured by forced ventilation or such other means as are considered suitable by the Inspector, or, if this cannot be effected, a *minimum* of 54 superficial feet and 900 cubic feet shall be provided for each person ;

(4) to provide suitable and sufficient latrines and urinals, the former containing at least one seat for every 50 operatives, separate accommodation of this nature being provided for female operatives when any are employed :

(5) to ensure that the factory is generally in a clean and wholesome condition.

8. Every factory shall be inspected by an Inspector as often as may be deemed sufficient, but it shall be inspected at least three times in every calendar year if the factory is open for more than eight months in the year, at least twice if it is open for not more than eight months in the year, and at least once if it is not open for more than four months in the year. At the inspection the Inspector shall muster all children employed on the premises, examine all registers required to be kept under the Regulation or these rules and see that all orders respecting the secure fencing of machinery and mill-gearing and respecting the water-supply, the ventilation and the sanitation of the factory and the accommodation provided therein are observed and generally that the provisions of the Regulation and the rules made thereunder are being duly carried out.

9. An Inspector may enter a factory for the purpose of Section 4 of the Regulation at any time during the day or night according as work is being carried on therein by day or night, but he shall not examine the children employed therein for the purpose of verifying the registers kept under Section 9 of the Regulation except during working hours.

10. The result of each inspection and all orders and remarks made by the Inspector on the occasion of inspection shall be recorded in the Register of Factories (Form A). When the inspecting officer is not the registering officer, a copy of the record of inspection shall be sent to that officer in view to the insertion of the necessary particulars in the Register of Factories.

11. A copy of every order passed by an Inspector under Section 4 (*c*) or Section 12 (*c*) of the Regulation or under these rules in respect of the matters referred to in clauses (*b*), (*c*) and (*d*) of Section 18 (1) of the Regulation and of any remarks made by him on the occasion of each inspection, shall be transmitted to the occupier of the factory, or in his absence to the principal agent in charge of the factory, within twenty-four hours of the same being passed. The despatch through the post, under registered cover, of a copy of such orders and remarks shall be deemed to be sufficient service on the occupier of the factory of any directions contained therein. When the inspection is not performed by the registering Inspector, a copy of any orders or remarks passed should be sent to that officer.

12. Every order for the fencing of any part of the machinery or mill-gearing of a factory which an Inspector may pass under Section 12 (*c*) of the Regulation and any direction given under these rules with reference to clauses (*b*), (*c*) and (*d*) of Section 18 (1) of the Regulation shall state clearly what is required and shall specify a reasonable time within which what is required to be done shall be completed and shall further give notice that, if it shall not be so completed, the person responsible for the breach of the order will be prosecuted under Section 15 of the Regulation.

13. The occupier of a factory shall, if required by an Inspector, bring before him, on the occasion of inspection, all children employed in the factory and any other persons employed in the factory whom the Inspector may wish to see.

14. Certifying Surgeons under Section 5 of the Regulation shall grant certificates in the Form B appended. Forms of certificate in counterfoil will be supplied to certifying Surgeons.

15. Every occupier of a factory shall keep a file of all certifying Surgeons' certificates relating to persons in his employ and shall produce it when required by an Inspector. Every such certificate shall be returned by such occupier on demand to the parent or guardian of the person to whom it relates on his leaving the factory for other employ.

16. Every occupier of a factory shall keep registers in Forms C, D and E attached to these rules and no such register shall be destroyed or removed from the factory without the written permission of an Inspector.

17. In addition to the notice required by Section 10 (1) of the Regulation, every occupier of a factory shall set up and maintain in a conspicuous place in the factory a printed or written notice, in English and Kannada, in Form F appended, of the daily working hours of the factory. An alternative form is provided to meet the case of factories working on the shift system in which the hours of the shifts are substituted for those of opening and closing work. In factories where the shift system is adopted for a part of the year only, the register will be maintained in either of the alternative forms as may be necessary.

18. Any occupier of a factory on whom an Inspector serves an order under Section 12 (*c*) of the Regulation may, within seven days after receipt of such order, appeal to the Magistrate of the District.

Appeals from orders passed by District Magistrates in their capacity as *ex-officio* Inspectors shall lie direct to the Government of Mysore. There shall be no further appeal from an order passed by the aforesaid appellate authorities, but the Government of Mysore may review any order mentioned in this rule either of an Inspector or of an appellate authority and may issue any orders thereon which may seem proper. In order that effect may be given to the latter part of this rule, copies of all the orders referred to herein shall be transmitted to the Government of Mysore as soon as they are passed.

19. An appeal under the preceding Rule 18 shall be made in the form of a memorandum of appeal in Form G bearing a stamp fee as regulated by Article 11 of Schedule II of the Court Fees Act and shall be accompanied by a copy of the order appealed against.

20. The appeal shall be heard at as early a date as may be convenient and due notice of the date of hearing shall be given to the appellant and the Inspector.

21. If the order of an Inspector under Section 12 (*c*) of the Regulation is set aside or modified in appeal, the Inspector shall, as early as possible, deliver to the occupier of the factory such amended order as may seem to him to be required.

22. Notice of all accidents resulting in death or from which the injury is evidently so severe that there is no reasonable hope that the injured person will be able to return to his work within 48 hours, shall be given on the same day on which they occur. Notice of accidents of a less severe character, but which nevertheless prevent the person injured from returning to his work within 48 hours of the occurrence, shall be given immediately on the expiry of the 48 hours' interval allowed by Section 13 of the Regulation. Such notices shall be sent both to the nearest Magistrate having local jurisdiction, and also to the District and Sub-Division Magistrate (where there is such a Sub-Division Magistrate) within whose jurisdiction the factory is situated and also to the registering Inspector. Notice of fatal injuries shall at the same time be given at the nearest Police station as required by Section 45 of the Code of Criminal Procedure, 1882, as introduced into Mysore by Regulation I of 1886. All such notices shall contain full particulars of the accident and shall be sent by special messenger except in the case of the copy to the Inspector which may be sent by post. This notice shall be in Form H appended.

23. A copy of these rules and of the forms appended, with a translation thereof in Kannada, shall be kept hanging in a conspicuous place in each factory.

FORM A.

(*Vide* Rules 2 and 10 of the Rules framed under the Mysore Factories Regulation.)

1	2	3	4	5	6	7				8		9	10
Serial No.	Name and description of factory.	Village and taluk wherein situated.	Name of resident manager.	Name of proprietor.	Date of inspection.	Number of persons at work at date of inspection.				Number of children mustered at inspection.		Whether registers C, D and E and the file of certificates in Form B are kept.	Whether (1) Form F under Rule 17, (2) a copy of the rules as required by Rule 23 and (3) the notice required by Section 10 of the Regulation are put up in a conspicuous place.

Memorandum of Appeal.

(Name) ——— Appellant, Owner (occupier or manager) of———
Factory *situated at* ———, in Taluk of———, District of———.

The said——— above named, appeals to the District Magistrate of———
against the order of ——— Esq., Inspector of Factories, dated the——— day of———
for the following reasons, namely [here state the grounds of objection].

FORM H.

(*Vide* Rule 22 of the Rules framed under the Mysore Factories Regulation.)

Form of Notice of Accident occurring in a Factory.

To———

Sir,

I———beg hereby to give notice under Section 13 of the Mysore Factories Regulation that an accident occured in the Factory of———at ———o'clock this day causing ———to the persons mentioned below:—

Name.	Caste.	Sex.	Age.	Nature of injury.

2. The accident was caused by———.

3. The injured persons are under treatment by——— (or have been removed to the hospital at———).

I have, &c.,

Dated———.

Manager.

In exercise of the power conferred by clause (2), Section 18, of the Mysore Factories Regulation 1892, the Government of Mysore has been pleased to make the following rule :—

Every occupier of a factory shall furnish to the Magistrate of the District, the undermentioned returns on or before the dates specified against each :—

I.—On or before the 15th July and the 15th January, respectively, a half-yearly return relating to the first and second-half of each calendar year in the following form :—

Name and situation of factory.	Name of owner or occupier.	Name of manager.	Nature of industry.	Nature and amount of moving power.	Average daily number of operatives employed.				Whether the factory is worked by shifts or stoppages. If the latter, the hour and extent of daily stoppage.	Whether there is a general holiday on Sunday or on varying week days, or whether the factory has been exempted from the rule as to Sunday labor under Section 5 B (1), clause (c), of the Regulation.	Remarks.
					Adults.		Children.				
					Male.	Female.	Male.	Female.			

N. B.—The average daily number of children is to be taken from the register of children kept in the factory.

II.—On or before the 15th January of each year, an annual return in the following form regarding measurements and space :—

Name and situation of factory.	Name of occupier.	Measurements and cubical contents of each room in the factory.	Area of the floor space of any room shown in the preceding column occupied by machinery or other fixtures.	Remarks.

III.—Before the end of each calendar month, a return giving notice of all the days on which the factory will be closed during the ensuing month.
